Complimentary group educational visits are available from October 3, 2022 - May 31, 2023 for service learning students. Forms are available on our [website](#).

Without reflection, we may focus on what we do for others and not understand all the ways that service contributes to who we are as a person. When service-learning is done with quality, reflection is entwined throughout the student-centered service-learning experience... Students understand what they gained from the experience as much as what they gave.
